PROFILE

Second-year Bachelor of Information Technology student at Griffith University with hands-on experience in JavaScript applications, SQL/database design, and data visualisation through university projects. Seeking internship, WIL, or student-friendly technical roles in software, QA, data, or IT support in Brisbane.

EDUCATION

Griffith University

Bachelor of Information Technology (Software Development) | Expected graduation: End 2027

SELECTED PROJECTS

Queensland Railway Interactive Map | JavaScript, p5.js, GeoJSON | 2025

github.com/vy-trg/qlld-railway-map

- Built an interactive map using real Queensland railway station data from GeoJSON, with hover tooltips for station name, coordinates, and operational status.
- Rendered multiple train routes in distinct colours with geographically accurate coordinate scaling on a real background map

Kakadu Kitchen Database System | SQL, MySQL, ERD | 2025

github.com/vy-trg/kakadu-kitchen-database

- Implemented a relational database from an ER diagram, creating tables with primary and foreign keys and inserting structured business data.
- Wrote 8 analytical SQL queries using joins, aggregations, and subqueries.

Space Shooter Game | JavaScript, p5.js, p5.play | 2025

github.com/vy-trg/space-shooter-game

- Developed a browser-based game with 4 scenes, sprite collision detection, keyboard controls, sound, video, GUI text input, and JSON-driven leaderboard data to manage user interaction and game state.

EnergyCheck | HTML, CSS, JavaScript | 2026

github.com/vy-trg/energycheck

- Led a team of 5 to design and build a 10-page responsive website for Australian renters, applying the full Design Thinking process from empathy research to user testing.
- Built the shared stylesheet using CSS custom properties, responsive grid, and dark mode support.

WORK EXPERIENCE

Service Staff | Hikari Ramen, Orion Shopping Centre, Brisbane QLD

Jun 2025 - Present

- Managed customer orders and payments accurately using POS systems in a high-volume environment.
- Delivered fast and reliable customer service while maintaining accuracy under pressure.

Service Staff | Dadam Korean BBQ, Orion Shopping Centre, Brisbane QLD

March - April 2026

- Coordinated with kitchen staff and monitored table equipment to help maintain smooth service operations.
- Supported customers in a busy hospitality setting with attention to speed, accuracy, and teamwork.

Mathematics Tutor (Freelance) | Da Nang City, Vietnam

May - Oct 2024

- Provided 1:1 tutoring to students at different levels, adapting lesson plans to individual needs.
- Tracked progress and explained concepts clearly to improve student understanding and outcomes.
